CLIMATE CHANGE ADAPTATION STRATEGIES

11 TO 15 DECEMBER 2017

Sponsored by the

SINGAPORE COOPERATION PROGRAMME

under the

**SINGAPORE COOPERATION PROGRAMME TRAINING AWARD /
SMALL ISLAND DEVELOPING STATES TECHNICAL COOPERATION
PROGRAMME**

to be conducted by the

**SINGAPORE ENVIRONMENT INSTITUTE –
NATIONAL ENVIRONMENT AGENCY**

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, Singapore has sponsored training courses and study visits for over 115,000 officials from more than 170 countries. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

Singapore Environment Institute, National Environment Agency

Singapore Environment Institute (SEI) is the training and knowledge division of the National Environment Agency (NEA). Within NEA, SEI distils and documents the knowledge residing with experienced staff, as well as knowledge from other relevant sources, for transfer to the next generation of officers via its training programmes.

The Institute also develops and up-skills the local industry's manpower capabilities, thereby adding value to Singapore's environmental arena. SEI's public lectures feature renowned environmental speakers who catalyse thought leadership and foster communities of best practices. SEI's collaborations with, and strong support from industry, academic and government organisations, are instrumental to its goal of "Advancing Knowledge in Environmental Sustainability".
